

Prague seminar on substructural logics

Prague, 28–29. March 2014

Institute of Computer Science AS CR, room 318, Pod vodárenskou věží 2, Prague

Friday 28.3.

- | | | |
|-------------|---------------------------------------|--|
| 09:00–10:30 | <i>Rostislav Horčík</i> | Eilenberg variety theorem and Abstract Algebraic Logic |
| 10:50–12:20 | <i>Nick Galatos</i> | A survey of residuated frames with connections to semirings and to display logic |
| 14:00–15:30 | <i>Revantha Ramanayake</i> | Display calculi in non-classical logics |
| 15:50–17:20 | <i>Luca Spada, Nick Bezhanishvili</i> | Axiomatisations for all varieties of n -potent residuated lattices |
| 17:40–18:40 | <i>Tomoyuki Suzuki</i> | A universal study of relational semantics for substructural and lattice-based logics |

Saturday 29.3.

- | | |
|-------------|--|
| 09:00–12:00 | <i>Short presentations of new results</i> |
| 14:00–15:30 | <i>Round table: Substructural logics – Quo Vadis</i> |
| 16:00–18:00 | <i>Unstructured discussion</i> |
